General: Building Safety and Permitting Fees

A	The purpose of the permit fees are to ensure that the costs for providing enforcement and administration services are borne entirely by the construction activity prompting the need for such services.
B	The fee for each permit and other services provided by the Building Safety Division shall be as set forth in ordinance.XXXX
C	The effective date for revision to the schedule of fees and charges shall be as stated in the ordinance adopted by the Town Council.
Valuation	
The Valuation Data Table referred to herein shall be used to calculate the construction valuation used in computing building permit and plan review fees. For the purposes of determining valuation the most current valuation table as published in the February 2008 issue of the Building Safety Journal Published by the International Code Council shall be used. The valuation table will be kept on file with the Town Clerk's office, or may be obtained by the International Code Council at 500 New Jersey Avenue, NW, 6th floor, Washington, D.C. 20001-2070. The construction valuation shall include the total value of the proposed work, including structural, electrical, plumbing, mechanical, interior finish and normal site preparation. The data does not include the cost of land. Actual construction costs may exceed or be less than the building valuation designated herein. The building valuation is the average cost based on public data. The Valuation Data Table does not apply to alterations or repairs to existing buildings. Alterations and repairs shall be determined by actual construction costs. For reference purposes the Building Official may use published data such as RS Means Building Construction Cost Data when the construction costs submitted is in question. Any valuation not specifically provided for shall be determined by the Building Official and shall be classified in the use and construction The Building Official shall update the Valuation Data Table on March 1 of every year with the most current valuation data published in February of year in the Building Safety Journal published by the International Code Council. The valuation table currently in effect will be kept on file with the Town Clerk's office, or may also be obtained directly from the International Code Council at 500 New Jersey Avenue, NW, 6th flood, Washington, D.C. 20001-2070.
